

5c. Post Data Presentation Workshop Goals

1. Determining if members are interested in adding provider types
2. Understand whether the restriction on enforcement applies to Council's ability to insure DOI has resources & tools in place to measure and make determinations
3. Understand how to use providers outside to meet product carrier is selling
4. Decide/account for reduction in provider availability; whether to modify time/distance
5. Discuss whether to add standards and or criteria
6. Begin discussion of ECPs – stick with minimum or modify
7. Discuss other ways to determine network adequacy relevant to consumer for future iterations of the standards
8. Ensure we don't reduce the number of options for consumers
