

Sir,

Re: Sept. 25, 2012 Desert Valley Times article "Public Input on Obamacare"

10 existing health plans to set the benchmark for items and services included in the essential health benefits package doesn't list United Healthcare, however my former employer's healthcare coverage is United Healthcare. Therefore will this companies plan payments be accepted by Nevada doctors and health care facilities.

In the near future my benefits from my former employer, Caterpillar Inc, I am a retiree, will cease and I will be required to purchase health benefits at my expense. I will be interested in looking at AARP United Healthcare plans. Will I be able to consider doing so?

Also I am concerned about pre-existing conditions being covered as I have had 2 open heart surgeries (2004 & 2011) and am also a diabetic.

I would appreciate any information you could provide me. I am an 80yr. old resident of Mesquite, Nv.

Sincerely,

G.L.
