

**NOTICE OF INTENT TO ACT UPON REGULATION
AND
HEARING AGENDA**

Notice of Hearing for the Adoption, Amendment or Repeal of Regulations of
The Department of Business and Industry, Division of Insurance

The State of Nevada, Department of Business and Industry, Division of Insurance (“Division”), (775) 687-0700, will hold a public hearing at 1:30 p.m., on August 15, 2018, in the 1st Floor Hearing Room, 1818 East College Parkway, Suite 103, Carson City, Nevada 89706. Interested persons may also participate through a simultaneous videoconference conducted in the 4th Floor Nevada Room at the Nevada State Business Center/Division of Insurance, 3300 West Sahara Avenue, Suite 275, Las Vegas, Nevada 89102. The purpose of the hearing is to receive comments from all interested persons regarding the adoption, amendment or repeal of regulations pertaining to chapter 686A of the Nevada Administrative Code (“NAC”).

The following information is provided pursuant to the requirements of Nevada Revised Statutes (“NRS”) 233B.0603 and the directives of the Governor:

LCB File No. R001-18. Producer Fees. A REGULATION relating to insurance; requiring certain information to be included in certain agreements for consultation or related advice; requiring a copy of certain agreements for consultation or related advice to be made available for audit; authorizing certain persons to charge and collect a fee for providing consultation or related advice concerning individual health benefit plans; requiring an agreement for consultation or related advice concerning individual health benefit plans to contain certain information; revising references to insurance agents and brokers; and providing other matters properly relating thereto.

(1) Why is the regulation necessary and what is its purpose?

The 2017 Legislature passed SB 209, which was signed into law by the Governor on June 12, 2017. That bill amended NRS 686A.230, by allowing the Commissioner to adopt regulations for the charging and collecting of fees for consultation and advice on individual life, health and annuity policies. In 2016, the large majority of carriers operating in Nevada either eliminated paying commissions or dramatically reduced the amount of compensation being paid to producers for individual health benefit plans. Producers do play an important role in providing guidance and advice to consumers, and the dramatic change in compensation impacted the number of producers willing to participate in the Nevada individual health market. The ability to charge a fee for consultation or related advice in individual health benefit plans is intended to keep producers in the market, by allowing them to charge an optional fee for their consultation and other services provided to willing consumers.

(2) What are the terms or substance of the proposed regulation?

The elimination or dramatic reduction in the compensation paid to producers in Nevada’s individual health insurance market created a reduced incentive for producers to sell or service those

types of policies. This regulation is intended to allow producers to charge a fee to provide consultation or related advice about an individual health benefit plan, and it also requires that additional disclosures be included in the written agreement with their client. Additional disclosures that are being added include listing the producer's state and national producer license numbers, whether fees may be negotiated, whether fees are fully earned, whether the producer is certified by the Health Insurance Exchange, and whether the producer is covered under a policy of professional liability insurance. This regulation also adds the requirement of a disclosure notice to inform consumers that if a policy of insurance is purchased, the producer may be receiving additional compensation from the insurance carrier, in addition to the consultation fee; and, that premium subsidies offered by the federal government are only available on policies sold through the Exchange.

(3) What is the anticipated impact of the regulation on the problem(s)?

The number of Nevada producers willing to work in the individual health insurance market is expected to increase with the ability of producers to charge fees for consultation and other services concerning individual health benefit plans. Greater consumer protections will result from an increase in consumer awareness provided by the required disclosures contained in the written agreement.

(4) Do other regulations address the same problem(s)?

There are no other regulations that address the ability for producers to charge fees for consultation or other services in the state's individual health insurance market.

(5) Are alternate forms of regulation sufficient to address the problem(s)?

There are no alternative forms of regulation that would give producers incentives to remain in Nevada's individual health insurance market.

(6) What value does the regulation have to the public?

This regulation is intended to increase the number of Nevada insurance producers who are actively working and providing advice to consumers in the individual health insurance market. It will also increase consumer knowledge and protections through the required disclosures that must be included in the written fee for service agreement.

(7) What is the anticipated economic benefit of the regulation?

a. Public

1. Immediate: *This regulation should increase the opportunity for consumers to be advised on the purchase of their family's health insurance policy. This should help consumers select proper deductibles, co-insurance, premiums, and formularies to help protect their family's assets.*

2. Long Term: *This regulation should increase the opportunity for consumers to be advised on the purchase of their family's health insurance policy. This should*

help consumers select proper deductibles, co-insurance, premiums, and formularies to help protect their family's assets.

- b. Insurance Business
 - 1. Immediate: *This regulation will increase the amount of potential income for producers working in the individual health insurance market in this state.*

(8) What is the anticipated adverse impact, if any?

- a. Public
 - 1. Immediate: *Consumers who choose to enter into an agreement with a producer for consultation or advice on individual health benefit plans will be paying for services that, historically, were included in the premiums they paid.*
 - 2. Long Term: *Consumers who choose to enter into an agreement with a producer for consultation or advice on individual health benefit plans will be paying for services that, historically, were included in the premiums they paid.*

 - 2. Long Term: *None.*

(9) What is the anticipated cost of the regulation, both direct and indirect?

- a. Enactment: *The Division does not anticipate any cost to enact this regulation.*
- b. Enforcement: *Nevada producers are currently able to offer a fee for service agreement for consultation or related advice about group life, health and annuity products. This has not increased the cost of enforcement, so the Division expects any increased activity due to enforcement of this new regulation to be absorbed through current staffing.*
- c. Compliance: *The Division does not expect an increased cost of compliance due to this regulation.*

(10) Does the regulation establish a new fee or increase an existing fee?

This new regulation does not create a new state fee or increase an existing fee.

Producer Fees Regulation

This regulation proposes to expand the ability of producers to charge fees for consultation or related advice for individual health benefit plans, and to provide additional disclosures that are required to be included in the written agreements between the producer and his or her prospective client.

EFFECTIVE DATE OF REGULATION:
Upon filing with the Nevada Secretary of State

1. **BACKGROUND.**

The 2017 Legislature passed SB 209, which was signed into law by the Governor on June 12, 2017. That bill amended NRS 686A.230 by allowing the Commissioner to adopt regulations for the charging and collecting of fees for consultation and advice on individual life, health and annuity policies. In 2016, the large majority of carriers operating in Nevada either eliminated paying commissions or dramatically reduced the amount of compensation being paid to producers for the sales of individual health benefit plans. Producers do play an important role in providing guidance and advice to consumers, and the dramatic change in compensation impacted the number of producers willing to participate in Nevada's individual health market. This proposed regulation is intended to keep producers in the Nevada market, by allowing them to charge a fee for their consultation and other service provided to willing consumers. A large number of disclosures are to be included as part of the required written agreement to add necessary consumer protections and information related to the Nevada health insurance market.

2. **DESCRIPTION OF SOLICITATION SHOWING A CONCERTED EFFORT. NRS 233B.0608(1).**

This proposed regulation is limited to allowing Nevada's insurance producers to charge fees for consultation and other services related to individual health benefit plans. Producers are currently allowed to charge fees for consulting services on group life, health and annuity products, so the change contained in this regulation is limited to individuals, not small businesses. Because of that, the Life and Health Section of the Nevada Division of Insurance determined there was no reason or benefit to be gained from polling non-insurance small businesses about the impact of this regulation. Additionally, an advisory group of Nevada health insurance producers, who are also small business owners, provided comments relevant to creating this regulation.

3. **DOES THE PROPOSED REGULATION IMPOSE A DIRECT AND SIGNIFICANT ECONOMIC BURDEN UPON A SMALL BUSINESS OR DIRECTLY RESTRICT THE FORMATION, OPERATION OR EXPANSION OF A SMALL BUSINESS? NRS 233B.0608(1).**

NO YES

4. HOW WAS THAT CONCLUSION REACHED? NRS 233B.0608(3).

The Life and Health Section of the Nevada Division of Insurance internally analyzed the impact of this regulation on Nevada small businesses. Because the new regulation only applies to consultation and other services related to individual health insurance benefit plans, it was determined that this regulation would not have any negative impact on small businesses.

I, BARBARA D. RICHARDSON, Commissioner of Insurance for the State of Nevada, hereby certify to the best of my knowledge or belief a concerted effort was made to determine the impact of the proposed regulation on small businesses and that this statement was prepared properly and the information contained herein is accurate. Producer Fees Regulation

This regulation is proposed to expand the ability of producers to charge fees for consultation or related advice for individual health benefit plans, and to provide additional disclosures that are required to be included in the written agreements between the producer and his or her prospective client.

1. SUMMARY OF COMMENTS RECEIVED FROM SMALL BUSINESSES. NRS 233B.0609(1)(a).

An advisory group of health insurance producers from both Northern and Southern Nevada worked on creating the language for this regulation. These producers are also small business owners in the state, and their comments were considered in drafting the regulation.

Other interested parties may receive a copy of this summary by contacting Susan Bell, Legal Secretary, Nevada Division of Insurance, at (775) 687-0704 or suebell@doi.nv.gov.

2. HOW WAS THE ANALYSIS CONDUCTED? NRS 233B.0609(1)(b).

This proposed regulation is limited to allowing Nevada's insurance producers to charge fees for consultation and other services related to individual health benefit plans. Producers are currently allowed to charge fees for consulting services on group life, health and annuity products, so the change contained in this regulation is limited to individuals, not small businesses. Because of that, the Life and Health Section of the Nevada Division of Insurance determined there was no reason or benefit to be gained from polling non-insurance small businesses about the impact of this regulation. Additionally, an

advisory group of Nevada health insurance producers, who are also small business owners, provided comments relevant to creating this regulation.

3. ESTIMATED ECONOMIC EFFECT ON SMALL BUSINESSES THE REGULATION IS TO REGULATE. NRS 233B.0609(1)(c).

This regulation is expected to have no impact on non-insurance small businesses in the State of Nevada. There may be an economic benefit to small businesses that are insurance agencies or brokerages which receive reduced or no compensation from the insurance carrier, but can now charge a fee to the consumer.

4. METHODS CONSIDERED TO REDUCE IMPACT ON SMALL BUSINESSES. NRS 233B.0609(1)(d).

There were no methods considered since the regulation only applies to individual health insurance benefit plans and the producer fee is for an optional service made available to the general public.

5. ESTIMATED COST OF ENFORCEMENT. NRS 233B.0609(1)(e).

There is no anticipated cost of enforcement for this regulation. The existing staff of the Division of Insurance is expected to be sufficient.

6. FEE CHANGES. NRS 233B.0609(1)(f).

This regulation does not include any new state fees or charges.

7. DUPLICATIVE PROVISIONS. NRS 233B.0609(1)(g).

This regulation does not duplicate any existing federal, state or local standards. It is also not more stringent than any existing federal, state or local standards.

8. REASONS FOR CONCLUSIONS. NRS 233B.0609(1)(h).

The Life and Health Section of the Nevada Division of Insurance internally analyzed the impact of this regulation on Nevada small businesses. Because the new regulation only applies to consultation and other services related to individual health insurance benefit plans and the consultation is an optional service that the consumer chooses whether to accept or not, it was determined that this regulation would not have any negative impact on small businesses.

I, BARBARA D. RICHARDSON, Commissioner of Insurance for the State of Nevada, hereby certify to the best of my knowledge or belief a concerted effort was made to determine the impact of the proposed regulation on small businesses and that this statement was prepared properly and the information contained herein is accurate.
